UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

SOUTH PACIFIC SHIPPING CO I TD (4/b/a

ECF CASE

SOUTH PACIFIC SHIPPING CO. LTD. (d/b/a Ecuadorian Line) and PACIFIC FRUIT INC.,

07 Civ. 6317 (GEL)(KNF)

Plaintiffs,

-against-

DECLARATION OF JOHN R. FOSTER

NEW YORK CONTAINER TERMINAL, INC.,

Defendant. -----X

JOHN R. FOSTER declares as follows:

- 1. I am an officer of Waesche, Sheinbaum & O'Regan, P.C., attorneys for the plaintiffs, Pacific Fruit Inc. ("Pacific Fruit") and South Pacific Shipping Co. Ltd. ("South Pacific"), and a member of the Bar of this Court. I make this Declaration based on my personal knowledge, as well as from documents in my file.
- 2. I respectfully submit this Declaration in further support of Plaintiffs' application on an urgent basis for a temporary restraining order and preliminary injunction enjoining the defendant, New York Container Terminal, Inc. ("NYCT"), from failing to perform its duties in accordance with the Terminal Operating, Stevedoring and CFS ["Container Freight

Station'] Service Agreement (the "Stevedoring Contract"), dated April 29, 1997, as amended by the Confidential Rate Schedule for Ecuadorian Line, dated October 1, 2005, and signed in December 2006.

- 3. Plaintiffs originally submitted their application for this injunctive relief to the Part I judge (the Honorable Sidney H. Stein) on Wednesday, July 11, in order to compel the discharge and handling of more than 200,000 boxes of bananas and other perishable cargoes on board the M/V DUNCAN ISLAND. That ship was arriving the next morning, Thursday, July 12, at NYCT's terminal on Staten Island to deliver her cargo to Pacific Fruit and others. After notice of the application was served on NYCT's lawyers, the parties reached an agreement to allow the DUNCAN ISLAND (as well as last week's M/V ATLANTIC OCEAN) to discharge without the need for court intervention.
- 4. However, the parties have been unable to reach further agreement for those ships arriving in the regular weekly service for the coming weeks, with the next scheduled vessel (the M/V ARCTIC OCEAN) due this Thursday, July 26. True copies of the relevant email exchanges between counsel are attached as Exhibits 1-8.
- 5. Thus, for essentially the same reasons previously stated on July 11, the renewal of this urgent request is necessary to prevent these perishable cargoes from spoiling and becoming unmarketable, as well as to prevent irreparable harm to plaintiffs' business because of NYCT's refusal to honor its contractual obligations to provide a berth and to unload ships. Upon information and belief, the labor to work this ship must be ordered by NYCT by about 1:00 PM on Wednesday, July 25, to work the ship the next day.
- 6. Moreover, NYCT still refuses to work any of South Pacific's vessels on Wednesdays, Thursdays, and Fridays after August 3 (when the M/V HOOD ISLAND arrives), despite NYCT's promise to do so in its contract with South Pacific. The motives for NYCT's

refusal are essentially twofold: First, NYCT is disregarding its contractual obligations to South

Pacific in order to favor a new, larger customer: APL Limited. Second, NYCT's new owner, a

Canadian pension fund, is pressuring NYCT's management to improve the Terminal's bottom

line. (See the last paragraph of the July 20 Jaffe letter, Exhibit 7.) NYCT's "drop dead" date is

quickly approaching: A loaded vessel will sail from Ecuador about next Wednesday, August 1,

for arrival at NYCT's terminal the following week, on about Wednesday, August 8.

I declare under penalty of perjury that the foregoing is true and correct. Executed on July 23, 2007.

JOHN R. FOSTER

#### Mark:

Confirming our telephone conversation of a few minutes ago, my understanding is:

- 1. NY Container Terminal will work the ship coming in tomorrow.
- 2. NY Container Terminal contends that it has a claim for ~\$2 million against South Pacific Shipping for stevedoring charges. NYCT contends that it has the right to arrest South Pacific vessels as security for its claim.
- 3. South Pacific will use its best efforts to obtain a Club letter for \$1 million as security for NYCT's claimed stevedoring charges for the period from inception through 90 days after the date of the Club letter.
- 4. In order to present NYCT's demand for security to the Club, South Pacific needs from you a letter demanding security and providing a calculation of the claimed amount. As mentioned, the \$2 million figure is news to Pacific Fruit.
- 5. In return for the Club letter, NYCT will refrain from seizing South Pacific assets in accordance with standard Club wording.
- 5. Also in return for the Club letter, NYCT will continue normal working of the South Pacific's vessels, with the understanding that the issue of working the vessels on a restricted-service basis subsequent to 9/1/07 will be addressed by the parties later.

Please let me know if I have made any mistakes in what was discussed.

Based on my understanding that tomorrow's vessel will be worked, I have advised Judge Stein's Chambers that a) tomorrow's problem has been resolved by the parties, b) the need for a TRO is therefore presently moot, and c) if there are any further problems, such as next week, we will raise them then with Judge Lynch.

Regards,

John R. Foster

Re:

South Pacific Shipping Co. Ltd. (D/B/A Ecuadorian Line) and Pacific Fruit Inc. v. New York Container Terminal

USDC - SDNY

07 CV 6319 Judge Lynch Our File No. 5027-9

Dear John:

On behalf of defendant we have accepted service at noon today of the Summons and Complaint and the form of Order To Show Cause and moving papers in the above action and confirm our discussions as follows:

1. Without prejudice to its claims for compensatory damages, defendant will work the following vessels:

M/V DUNCAN ISLAND Due July 12, 2007 M/V ATLANTIC OCEAN Due July 18, 2007 M/V ARCTIC OCEAN Due July 26, 2007 M/V HOOD ISLAND Due August 3, 2007

- 2. In return and to refrain from arresting such vessels, their cargo and freights defendant expects to receive a Club Letter or comparable security in the amount of \$1 Million to secure defendant's claims through the call on August 3<sup>rd</sup> of the HOOD ISLAND and for further vessel calls through the months of August and September, 2007.
- 3. As previously notified to your clients, defendant is presently assessing the cost of the service changes made unilaterally by your clients as and from January, 2007. However,

(NY060928.1)

FLORIDA

John R. Foster, Esq. July 11, 2007 Page 2 of 2

attached preliminarily is a schedule showing the productivity losses sustained by defendant through May, 2007 by reason of these service changes made by your clients. It is our understanding that such losses are continuing at the rate of at least \$80,000 per month.

- 4. Hopefully, between now and the end of September our clients will be able to resolve their disputes either commercially or by arbitration. Also to be resolved is the question of the days on which vessel calls occur and time now being required for discharge.
- 5. We have filed a Notice of Appearance on behalf of defendant and look forward to your confirmation by tomorrow that the Club Letter will be forthcoming.

Sincerely,

Mark M. Jaffe

#### WITHOUT PREJUDICE

#### John:

On a going forward basis and for the sake of good order we deal with the \$2 million damage estimate that we provided to you this morning. As your client is aware, NYCTI has been studying the extent of loss of productivity and extra costs arising from the service change since the beginning of the year. One aspect of that study dealing with the loss of productivity has been furnished to you earlier today. However, your client needs to be aware what other aspects of the operation are also being evaluated related to equipment, etc. In some cases, it appears that there have been savings, but for other aspects, there are certainly extra costs. The results of those studies are not yet available. All in all, however, it is clear that the extra costs on the stevedoring side are going to well exceed \$1 million by September, but we have urged \$1 million as a provisional figure.

In addition, the change in working days and the extension of the time of each vessel has to be worked will begin driving other damages in terms of the Terminal's operations, particularly at a time when the Terminal will be receiving additional vessel calls from other customers. Those aspects are also being studied, but there are no results available so far--but clearly the claim will likely be headed over the \$2 million estimate provided this morning.

#### Regards.

- 1. Thank you for your msgs of yesterday afternoon and evening, the contents of which are noted. But I believe that my email following our conversation better reflects what was discussed and particularly the understanding of South Pacific/Pacific Fruit. Specifically, there was no discussion about the Terminal arresting cargo, which there is no basis to do. Also, we did not discuss limiting the Terminal's working of vessels to specifically named vessels on specific dates.
- 2. As to the quantum of NYCT's claim, the spreadsheet does not explain how the "productivity" costs are calculated or what provision of the contract NYCT relies on as the basis for the claim. It would be helpful in our discussions on security if you would please explain these points. Also, we are confused by the claim amount of \$700,000 for 5 months, as the monthly charge previously claimed had been \$80,000. Can you explain the difference, please? Also, I note that the schedule does not credit South Pacific for the \$240,000 already paid under protest in May. Finally, if the Terminal will not allow South Pacific to discharge as scheduled during August and September, why should South Pacific provide security for those months?
- 3. As I mentioned on the telephone a few minutes ago, the Standard Club is refusing to provide the requested letter. The rationale is that NYCT's claim is for contractual charges that are not covered by the Club rules. The matter is still under discussion (at least in our view), and we are considering alternatives, such as approaching the charterer's P&I. If you have any suggestions or proposals, please feel free to let us know. I will advise you once I know more.

<j.keough@waeschelaw.com>

#### Gentlemen:

We refer to John Foster's email of July 12, 2007 at 5:37 PM and respond as follows:

- 1. We are not aware of any doubt that if the applicable Stevedoring and Terminal charges are not paid that the Terminal is somehow also prevented from detaining and disposing of the cargo in respect of such charges. Also, we do not understand where you have gone to court on an Order to Show Cause naming specific and regularly scheduled vessels that there is any basis for the Terminal to agree in advance to work other vessels, particularly at a time when your clients are aware that as and from August 4<sup>th</sup>, the Terminal may be at virtual capacity and cannot handle any other vessel calls.
- 2. We have advised you that the security will cover a period of three (3) months of vessel operations—July, August, and September—by which time we trust that the dispute between our clients will be resolved. Meanwhile, our client has agreed to accept security of only one million (\$1,000,000) dollars when its potential claims are obviously more. We visited the Terminal today to obtain the information you requested regarding computation of damages. All computations are still a work in progress because there are a number of variables necessarily being considered. However, in the interim we can provide you with the following information without prejudice to its subsequent revision:
  - a. Loss of productivity by reason of additional hours needed to handle increased quantities of pallets (double or triple the normal volume)—See Schedule A for January through May. This pattern continued in June and is continuing in July roughly at the rate of \$140,000 per month, so that by the end of July this item of damage will be approximately \$980,000 less the \$240,000 already paid.
  - b. Additional equipment costs have run at the rate of approximately \$84,000 per month. Through May, the additional costs were \$420,786 (per Schedule B). By the end of July, this aspect of the claim will have risen to approximately \$580,000.
- 3. In addition to the items shown on Schedules A and B, the Terminal has identified the following additional cost areas per Schedule C:
  - a. Increased equipment wear and tear...... \$75,000/month

  - c. Waste removal......\$10,000/month (approx.)

f. Increased quantity of swingloads...... Not yet quantified

g. Repacking......Not yet quantified

- 4. The Terminal is presently in the process of studying and refining the numbers, but the estimates we have received clearly support the security which the Terminal has requested, and in our view such cannot be a serious issue, particularly as by August 4<sup>th</sup>, when the APL service starts, the level and rate of accruing damages will be "a whole new ball game."
- 5. Your clients are among the largest growers and shippers of fresh fruit in the world. It should not be the Terminal's problem as to how your clients produce the security required. They could do it in cash; by letter of credit; by bond; or by an alternate Club letter if charterer's P&I Club will accommodate its member.

While we are sympathetic with your client's situation regarding the Standard Club's refusal to issue a Club letter, we believe that the Terminal has provided ample time for the giving of security, and if the matter is not resolved by Tuesday, July 17, 2007, we will need to move to establish the security and/or dissolve the Order to Show Cause. Candidly, we do not understand why this action would have been initiated without having made arrangements in advance to post security.

Regards.

# New York Container Terminal Analysis of Change Of Business & Costs - For The 3 Months Ending 03/31/07 For Ecuadorian Container Line (ECL)

Monday, April 30, 2007

#### a. Increased Equipment Wear & Tear

Increase in Gross Hours of Operations (to Oct - Dec 2006) 170%

	Year	Hours
Г	2007	983.20
Г	2006	363.80
	ncrease	619.40

Estimated cost of additional equipment - \$75,000 per month.

#### b. Additional Land Usage

The increased congestion/Traffic caused by the increased drop trailers and stuffers as well as the additional waste containers has used up additional acreage needed for regular business. Estimated cost of additional Land - \$16,000 per month.

#### c. Increased Injury Claims

This area is difficult to quantify at this point but will no doubt result in additional WC premiums.

#### d. Increased Warehouse Labor

Our labor cost for warehouse operations has increased 100% over 2005 & 2006 (+\$441.9k over '06). While some of this cost has been recovered by increased revenue streams of stuffing / stripping (+\$350k over '06) it has not supplanted the increased costs.

	2005	2006	2007
Labor	\$443.0k	\$462.2k	\$904.1k
Revenue	\$173.6k	\$313.0k	\$662.7k

#### e. Waste Removal

While our labor costs for March '07 remained almost constant compared to the same period in '06, the additional space occupied by additional waste containers provided by our outside waste company still remains an issue.

Space obcapioa by adding			
	2005	2006	2007
Labor	\$93.0k	\$110.5k	\$142.6k

#### f. Productivity

The productivity of the Ocean Class Vessels for the first 3 Months compared to the Island class vessels has been reduced by 21% Gross and 18% Net compared to the October through December 2006 vessels. This has resulted in additional labor costs of almost \$37,000.

#### g. Terminal Congestion Additional Land Usage.

Due to increased live loads, drop trailers, loss of X fence, congestion caused by truck lines - Land Lost - 4 Acres.

#### h. Increased quantity of Swingloads

i. Repacking - Two to Three times the number of repacking

Case 2:07-cv-06317-GEL Docu

#### Mark:

- 1. As mentioned on the telephone a few minutes ago, South Pacific Shipping has been told by its owner's P&I club that the club will not provide a letter of undertaking as we requested. South Pacific has also made a similar request to its charterer's P&I club, and we are still awaiting their decision. Once we know something further, we will so advise you.
- 2. I confirm your advices that NYCT will not arrest the "Atlantic Ocean" when it arrives this week. Also, the Terminal will work the vessel normally. Consequently, there is no need to have court involvement concerning this ship.

Regards,

John R. Foster

Re:

South Pacific Shipping v. NYCT

Our File No. 5027-9

#### Gentlemen:

We refer to our telephone discussion of yesterday, July 18, 2007, wherein you advised that your clients were endeavoring to arrange a Club letter from Charterers' P&I Club. We were out of the office for meetings for the bulk of the day and were disappointed to have returned this evening to find no word from you with regard to the Club letter or alternate security. Meanwhile, there is a further vessel call next week, and it appears that NYCT is being requested to extend further credit to your clients where it is clear that NYCT will continue to incur damages by reason of inadequate compensation for the costs and services now required.

The delay on the part of your clients in being able to furnish security via a Club letter or otherwise has introduced a new element to NYCT's perception of matters. The apparent inability of your clients to expeditiously furnish security suggests that your clients' creditworthiness is not what it was thought to be, and NYCT is deeming itself increasingly insecure as additional extra costs are being incurred. Clearly, where your clients have procured an Order requiring their vessels to be worked, a court is not likely to order NYCT to continue to render services in the face of NYCT's growing claims for losses each time a vessel calls at NYCT's Terminal.

Our client requests that the security issue be resolved either by Club letter, bond, or a letter of credit by the close of business on Tuesday, July 24, 2007. Otherwise, we are instructed to request the Court to order that at least \$1 million in security be posted or to dissolve the Order. A form of letter of credit is enclosed to expedite matters.

{NY061102.1 }

John R. Foster, Esq. John R. Keough III, Esq. July 19, 2007 Page 2 of 2

We have also been asked to convey that the creditworthiness issue extends beyond the present dispute. NYCT is under new ownership and is now owned by pension fund investors who have the requirement of the steady cash flows necessary to meet pension obligations. For this reason, NYCT needs to maximize its cash flows, and customer creditworthiness is and will be a substantial factor in dealings with customers and determining whether to renew contracts. Your clients should guide themselves accordingly.

Sincerely,

Mark M. Jaffe

#### Mark:

- 1. Thanks for your letter/email of Thursday evening. Suffice it to say that we disagree with the Terminal's position, as well as your spin e.g., that South Pacific has delayed in its dealings with the clubs or that South Pacific was obligated to do anything more than use its best efforts in seeking a club letter.
- 2. I called yesterday afternoon, but as you were unavailable I left a voicemail message. I then spoke with Gordon Arnott and Elizabeth McCoy. The points I made:
- a. I spoke yesterday with the representative of the charterer's P&I club, who said that the club rules did not cover this contractual dispute. (The owner's P&I club had previously said the same about their rules.) Consequently, the club would not provide a letter except on terms unacceptable to South Pacific.
- b. Given the parties' positions, it seemed best to get Judge Lynch involved. I called Chambers yesterday and arranged a conference for next Tuesday, July 24, at 11:00 am.
- c. From your letter it appears that you are under the mistaken impression that there is a court order of some sort in effect in the case. There is no such order, as a review of the docket sheet will show.
- d. That said, at next Tuesday's conference we will ask Judge Lynch for a) a TRO, and b) a hearing in the near future for a preliminary injunction.
- 3. If you have any questions about the above, please feel free to call John Keough or me.

Regards,

John Foster
